

EMR INC.

EXPECT VICTIMS

The Strava of emergency services.

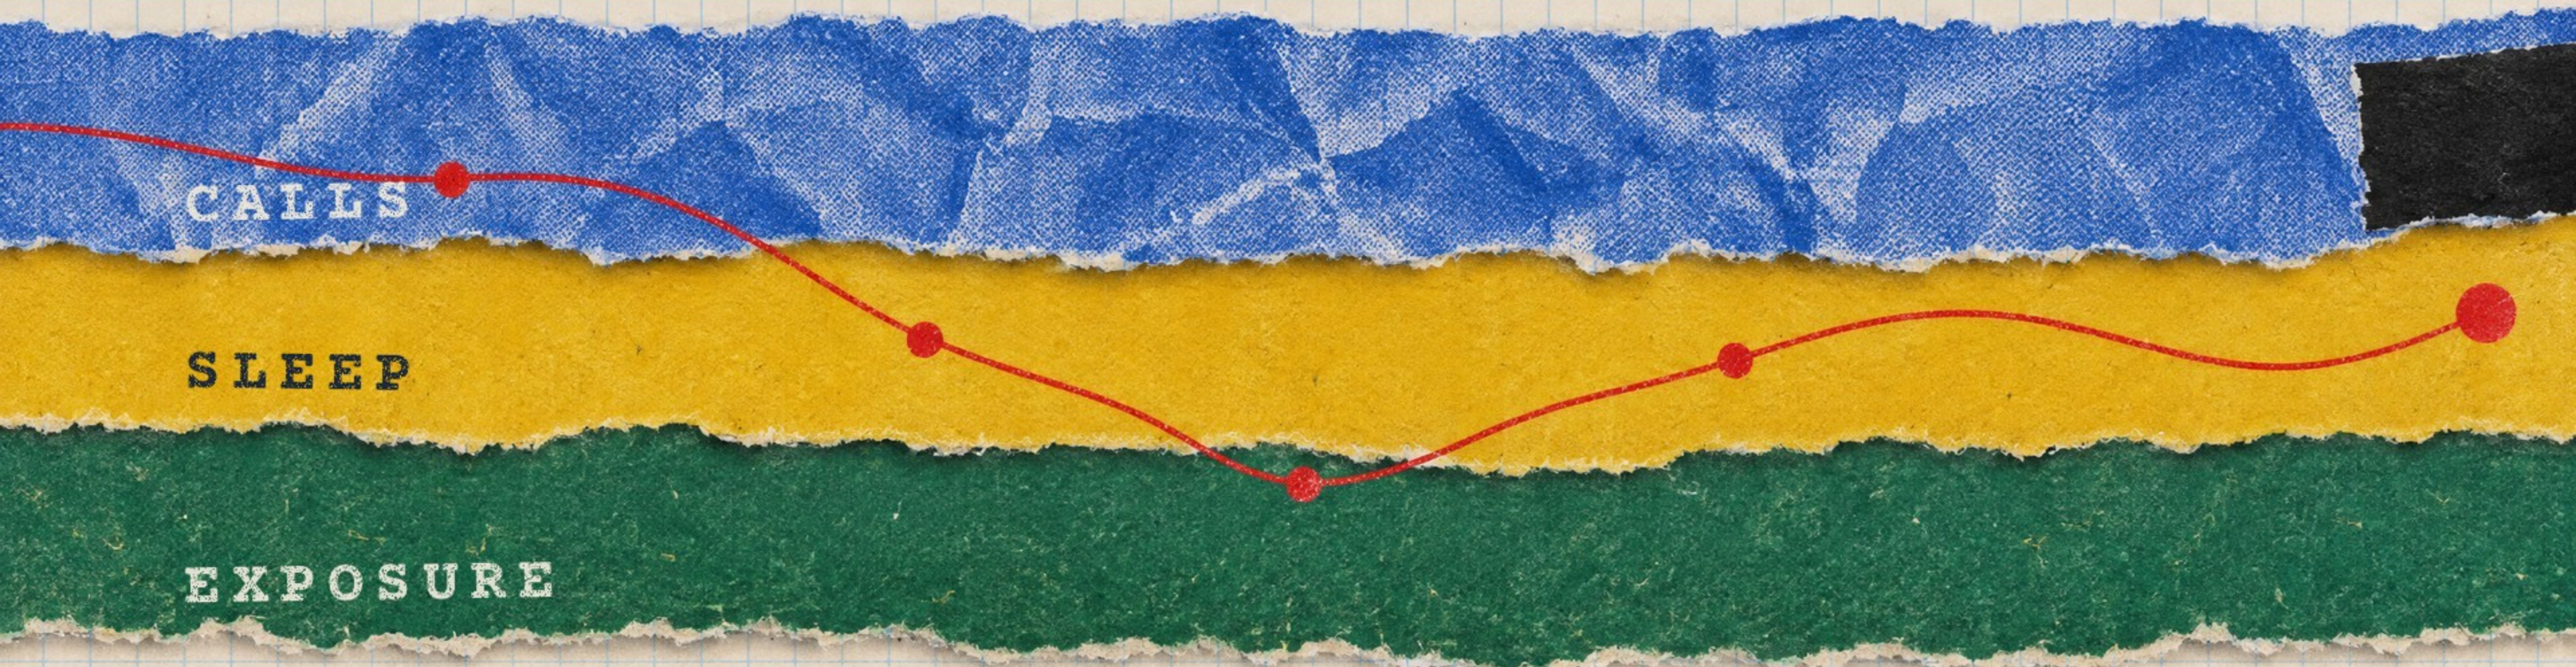

An occupational health log that builds itself from every call.

[BETA.EXPECTVICTIMS.COM](https://beta.expectvictims.com) / POWERED BY OHPAH RESEARCH

NOBODY KEEPS THE RECORD.

02 / THE PROBLEM

*Where the record goes dark, the
evidence goes with it.*

CALLS

SLEEP

EXPOSURE

Departments count the runs.
Nobody counts them for the
firefighter who ran them.

Overnight calls are logged as
timestamps, never as sleep lost
over a career.

Building age and materials sit in
public records, never linked to
the person who went inside.

IT WRITES ITSELF.

An occupational health log that builds itself from every call: workload, sleep loss and carcinogen exposure, across a whole career.

- 1 Live.** Every call, from radio and CAD, as it happens.
- 2 Site risk.** Hydrants, fuel and hazards before arrival.
- 3 Your record.** Every call your unit runs. Automatically.

records

The member never logs a thing.

THE RECORD BECOMES RESEARCH.

OHPAH is the research arm behind Expect Victims. Its metrics turn every member's record into quantitative evidence for fire and EMS health research and legislation.

- **MENTAL HEALTH METRIC** IN DEVELOPMENT

PROVISIONAL PATENT ON THE METRICS / RESEARCH PARTNER: FL CEMS

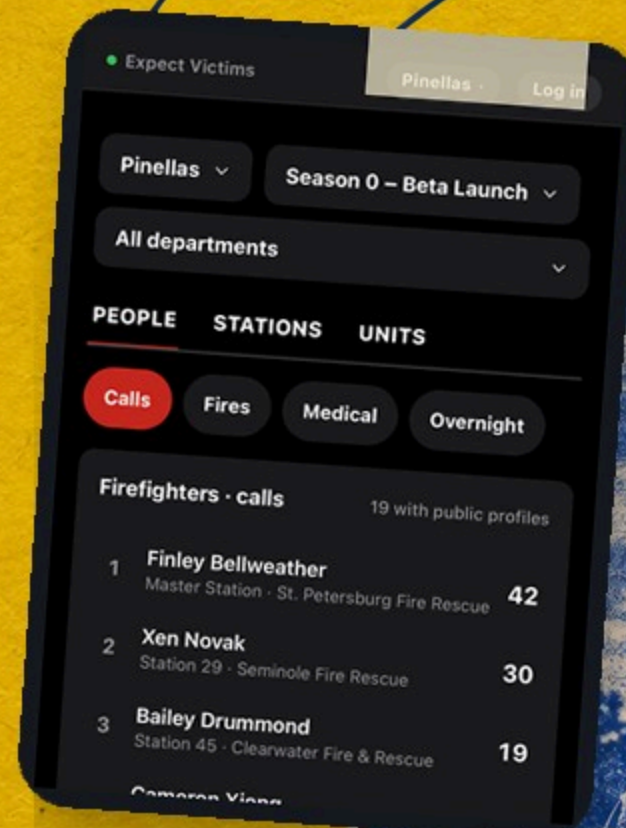

Share the load.

Members can share their call load and metrics with fellow firefighters: feedback, friendly competition, camaraderie.

Ranked by person, station and unit.

Opt in. The record stays the member's.

THE JOIN IS THE MOAT.

Every call leaves three public trails. Until now, nobody joined them to the firefighters who ran it.

CAD DISPATCH

Hard to copy. Each trail is messy on its own. Matching all three, call by call, to the right crew is the engine we built.

It compounds. No department contract needed to start, and every new county deepens the same record.

where all three meet

Firefighters showed up first.

Before a single paid seat, responders were already using it.

ACTIVE USERS SINCE JANUARY 2026

FIRST UNION PILOT

IAFF Local 2546

\$10K pilot covering about 1,700 members across 14 departments.

BOARD VOTE: OCTOBER 12

RECOGNITION

Winner, Tampa Bay
Innovation pitch competition

Finalist, 2026 EMS World
Expo Innovation of the Year

USF CONNECT company

THE UNION PAYS.

\$3

PER MEMBER
PER MONTH
FROM DUES

Members never see a bill. The local pays \$36 per member per year from dues it already collects.

Scales to any local. Per head pricing fits 40 members or 4,000.

Built in retention. A career record only gets more valuable. Nobody walks away from year five.

One local. Then a continent.

Every ring pays the same
\$36 per member per year.
Circles drawn to scale.

MARKET	MEMBERS	PER YEAR
Local 2546 (beachhead)	1,700	\$61K
Florida	28,100	\$1.0M
Southern region (IAFF 12th District)	44,469	\$1.6M
IAFF, U.S. and Canada	365,000	\$13.1M
Plus private ambulance EMS	122,500	\$4.4M
Total addressable	487,500	\$17.5M

LOCAL BY LOCAL.

Unions talk to unions. Every signed local becomes the reference for the next one.

Funded alongside the raise:
nondilutive grant filings through IAFF and USF.

Everyone else sells to the chief.

Department software records incidents for the agency. We record the person, for a whole career.
